

Urgent Care Centers Directory

Urgent Care Centers – Clark County

Urgent Care is care you get when you think you have a health problem that needs care right away but your life is not in danger. If you have an urgent health care need that is not life threatening, **first call your PCP for help any time day or night. If you cannot talk with your PCP, you can go to one of these Urgent Care Centers for medical care:**

Hospitals Directory

Hospitals

Emergency Care is care for a sudden or severe health problem that needs care right away. It can also be care that is needed because you believe your life or health is in danger. If you think you have an emergency, call 911 or go to the nearest emergency room.

If you are not sure you have an emergency:

- Call your Primary Care Provider's office any time day or night to ask their advice; or
- Go to one of CUP's Urgent Care Centers (see list of CUP's Urgent Care Centers).
